### Former Prison Director To Address The Woman's Club

### Sensational Allegations In Doctor Hennessey Will Contest

#### J. EMMETT OLMSTED OF PETALUMA IS TO SPEAK HERE AUG. 15

Next Social Afternoon of Sonoma Valley Woman's Club To Be An Interesting One.

The August social meeting of the Sonoma Valley Woman's Club on Friday, August 15th, will be of particular interest, the program director, Mrs. Perle Hunter, having secured as a speaker J. Emmett Olmsted of Petaluma, former member of the State Board of Prison Directors, now one of the State Industrial Accident Commission. Mr. Olmsted took a deep interest in the welfare and rehabilitation of prisoners and attained a record while on the Board for his exhaustive study of the records of men seeking parole. When he resigned to accept his call to the industrial accident post, his leaving was regretted by every prisoner and a beautiful plaque, hand carved by the men behind the gray walls of San Quentin, was presented to Mr. Olmsted and was suitably inscribed by them in token of their regard.

During a recent trip to Riverside with the California Press Association Mr. Olmsted was invited to speak at one of the leading churches of that city and his talk evoked great interest. It is predicted that a large audience of club members and friends interested in prison work will be in attendance at the meeting on the afternoon of August 15th to hear Mr. Olmsted's address.

Mrs. Charles Cutter will be hostess of the occasion.

#### FINE NEW HOME FOR BROADWAY

The beautiful corner site of Broadway and Chase avenue, 100x200 feet, formerly owned by Mr. and Mrs. Bose of San Francisco, has been purchased by the Froment family and on a 50 feet Broadway frontage Miss Eugenie Froment will erect a handsome stucco cottage which is to be the future home of the pioneer family. Contractor R. E. Murphy has completed arrangements for the immediate construction of this nice new home for the young investor, who, notwithstanding a trip to Europe's famous centers, is convinced that Sonoma has no peer in the world as a residence place.

The Froment purchase includes the cottage now occupied by Miss Alice Young and her mother on Chase avenue.

#### WILL TAKE TRIP TO HUMBOLDT COUNTY

Mr. and Mrs. Rae Hunter and family accompanied by Miss Grace Barr leave the coming week for a trip over the Redwood Highway. They go first to Lake county to visit the Pomeroy's summer home and then will camp along the scenic redwood route in Humboldt county.

#### These Hunters Get Deer With Bow and Arrow

Discarding the firearm of modern hunters, Miss Virginia Ayers and William J. Hackmeier of San Francisco, the latter a nephew of Mrs. John Serres of Caliente, reverted to the bow and arrow to bring down two deer near Cloverdale. Sighting a buck, Miss Ayers, using a bow with 52 pounds pressure, shot, and the deer fell mortally wounded. Bill opened fire while his quarry was on the run. His arrow, shot from a 75 pound pressure bow, caught the buck just behind the foreleg. The animal did not fall until it had struggled nearly a mile. The buck shot by Miss Ayers weighed 100 pounds and the one which fell as a result of Bill's unerring aim weighed 135 pounds.

#### CHARLES KELLY IS SUMMONED BEYOND

Charles Kelly, former government employe and brother of John W. and Miss Mayme Kelly of Boyes Springs, died at his home in San Francisco last week and was laid to rest Saturday. Death came as a surprise after an illness of more than a year, during which time everything known to medical science was done to restore the health of this splendid young man. Complex kidney trouble, however, baffled learned physicians and an operation proved unavailing. Some months ago the patient rallied temporarily and returned to his position at the United States custom house, where for many years he had been a highly regarded deputy collector. He was unable, however, to continue on with his work and since that time has been living quietly in San Francisco with his brother and sister, whose tender care and loving kindness brought solace and comfort to the end.

Charles Kelly was 46 years of age and a native of San Francisco. (Continued on Page Five)

#### FIRE DEPARTMENT CALLED OUT MONDAY

The fire siren startled residents of Sonoma Monday, the alarm calling the fire department to the former P. McDonnell place south of town, where a barn had burst into flames. The proximity of a number of summer cottages on the place caused grave apprehension until the fire had been controlled.

The big barn was saved, although the conflagration had a good start before the Sonoma fire ladders arrived on the scene.

#### VISITORS AT THE STILLINGS HOME

Mrs. Lloyd Stillings and two children and Mrs. Ralph Stillings and two children are here visiting relatives, accompanied by their mother, Mrs. Tiersman, of New York. The Stillings boys married two sisters of the Empire State. Mrs. Ralph Stillings has her three weeks old babe here for the family reunion.

#### City Dads Are Asked to Enforce Pound Law; Other Business Is Transacted.

The city trustees met Wednesday with President Bulotti and Trustees Bates, Lindley and Valente present. It was the regular August session, current bills being audited and ordered paid, and the marshal's report completing routine business.

The annual report of Sonoma's public library for the year ending June 30, 1924, was presented and ordered placed on file. The report in substance was as follows:

Books lent for home use.....	10,908
Periodicals lent for home use.....	483
Total number of books and periodicals loaned.....	11,391
Number of borrowers at beginning of year.....	1,001
Number of borrowers added during the year.....	81
Total number of borrowers.....	1,082
Receipts from unexpended balance, taxation, dues and fines.....	\$1,017.06
Money expended.....	790.35
Balance on hand.....	226.71

KATE I. McDONNELL,  
Librarian;  
EDNA D. COOPER,  
Secretary.

A communication was received from Sonoma Parlor, N. S. G. W., asking that the trustees enforce the pound law, or enact suitable legislation to keep cattle from roaming on the Plaza. The Native Sons recently beautified the square in the vicinity of the Bear Flag monument with a lawn, at great expense and much labor, and the members protest the invasion of cows and horses on the tempting green area. There is constant complaint from property owners throughout the city, many of whom would like to take down fences and adopt the modern style of continuous garden areas, but for the ineffective pound laws in the city of Sonoma.

#### Prominent Couple From Sacramento Visited Here

Mr. and Mrs. Oran A. King of Sacramento were visitors to Sonoma Valley this week. Mr. King is deputy commissioner of the State Real Estate Department and called on local realty men while here. He reported local conditions as entirely satisfactory.

Mrs. Maude S. King is a member of the State Board of Charities and Corrections. She was on a tour of investigation of institutions and while here visited the State Farm at Buena Vista, shortly to be converted into a unit of the State Home at Eldridge. She also spent considerable time at the Home and went over the various departments thoroughly to ascertain how the wards of the state are being cared for and problems to be solved in connection therewith.

Mrs. King states that the Board of Charities and Corrections is now making a complete survey of all dependents and defectives in California in order that a strict check-up on them may be kept and recommendations made as to the disposition of those still seeking admission to public institutions. A recent reported waiting list of 60 from one county dwindled to a half-dozen when room was made for the "applicants," and upon close investigation Mrs. King

says that the need existed largely in the minds of propagandists anxious to discredit Governor Richardson.

Mrs. King went from here to the Lytton Orphans' Home and then over to Lake county, where a number of private homes for dependents are maintained under supervision of the State Board of which the Sacramento woman is a valued member.

While in Sonoma Valley Mr. and Mrs. King paid a pleasant visit to the Index-Tribune office, having become well acquainted with the editors on several recent California Press Association outings.

The supervisors of Sonoma county will be asked by the city for permission to cross the county road at three places for sewer extension purposes.

Informal discussion of the sewer problem marked the meeting. It developed that City Engineer Specht had forwarded to the State Board of Health a clipping from the Sonoma Index-Tribune of August 2nd containing the recommendation of City Health Officer A. M. Thomson. The city engineer declared that the State Board criticized above all the location of the Sonoma sewer farm in such close proximity to small ranchers. Had an isolated site been possible, Sonoma might have successfully operated the present plant, declared Specht.

A resolution to establish a grade on Second Street East between Patton and Chase avenues was passed to print.

City Gardener Quartaroli asked that a lawn mower and 50 feet of hose be purchased for Plaza use.

City Recorder J. L. Small forwarded a check for \$152.50 to the board, the city's share of moneys collected through the enforcement of automobile traffic laws in Sonoma during the month of July.

#### PYTHIAN HOME SALE CONTRACT IS FILED

The terms of an agreement for the contract purchase by the Knights of Pythias of about 136 acres of Sonoma Valley property, the site for the new Pythian home, from Wallace L. Ware, Santa Rosa attorney, were contained in an agreement/notice filed in the county recorder's office this week. With \$2500 paid toward the \$32,500 purchase price, the Pythians will pay the residue within 15 years, the payments to be made in multiples of \$500. The interest rate is 6 per cent

#### Sonoma Valley 1924 Pear Crop \$100,000-One

If you meet a man on the street these days and he wears a satisfied smile or a silk shirt, he is likely to be a Sonoma Valley pear grower. The growers of Bartlett pears here will receive over \$100,000 for their crop this year. The usual supply of this famous fruit failed in many other sections of California, but Fortune smiled on the Valley of the Moon and made Bartlett pears come to a glorious maturity. There was a big crop and prices have been fancy. To date 55 carloads of Bartlett pears have been shipped from Vineburg and 35 carloads from Schellville. Station Agent C. W. Finch of Vineburg also reports the shipment of 30 carloads of apples from his station.

#### REDMEN ELECT THEIR NEW GRAND OFFICERS

A movement for the establishment of a Daughters of Pocahontas Lodge in Sacramento was started during the state convention of the United Order of Redmen and Daughters of Pocahontas, which was in session in Sacramento last week.

Grand Chief William Steinkamp of Sonoma will go to Sacramento once a week in an effort to accomplish this. An attempt was made about five years ago to establish a lodge, but it met with failure.

Eighty-two delegates were in attendance at the conclave which closed with a sightseeing tour in and around Sacramento, followed by a banquet for the delegates in the evening.

New officers of the Order are as follows:

Grand chief, William Steinkamp of Sonoma; first grand vice chief, Richard Levy, Los Angeles; second grand vice chief, George Meier; grand chaplain, George Witte; grand secretary, John Oppel; grand treasurer, Henry Grieb; marshal, John von Dohlen; (Continued on Page Five)

#### NARROW ESCAPE IN AUTO ACCIDENT

Last Sunday night as Mr. and Mrs. Erland Steiger and a party of friends were returning home from the Don Theatre in their car they met a large touring car at the Hall ranch corner which was on the wrong side of the road and being recklessly driven. Mr. Steiger turned far out to avoid it but the big machine caught the rear wheel of his Ford, swung it back into the center of the road and almost threw the occupants out. Mrs. Steiger's sister screamed as the cars collided and the reckless motorists, fearing they had hurt someone, stopped to ascertain the extent of the trouble. The Schellville people declare that the driver and companion were intoxicated and became abusive. Officer Joe Ryan was summoned and after viewing the accident placed the responsibility at the door of the two men who are said to have been from San Rafael. The Steiger car was repaired at their expense, but the family is still unnerved by the experience.

#### DAUGHTER OF LATE NAPA MEDICO SEEKS SHARE OF ESTATE

Former Sonoma Valley Friends and Patients Will Closely Follow Litigation In Estate.

A contest to the will of the late Dr. E. Z. Hennessey, filed last week by Frances Bolt, youngest daughter of deceased, through her attorneys, Phillip M. Carey of Oakland and Nathan F. Coombs, of Napa, will interest many Sonoma Valley friends and former patients of the widely known physician.

It is charged that Dr. Hennessey was incompetent to make a will because of his long illness, and also that he was unduly influenced by his son, Edwin.

Mrs. Bolt alleges in effect that Dr. Hennessey died owning property valued at more than \$100,000; that he also had real property in the city of Napa on the corner of Main and First streets valued at \$40,000.

The will provided as follows:

"I make no provision for my daughter, Frances Bolt, born Hennessey, and this action is intentional on my part."

The will left \$10,000 to the daughter, Mary Robertson, she to have the proceeds only, and upon her death it is to go to the son, Edwin or his heirs.

The will left to the son, Bertram, the sum of \$15,000, to be paid as follows: \$5000 in five years and \$10,000 in seven years; that in the case of the death of Bertram, and his infant son, (Continued on Page Four)

#### GLEN ELLEN MAN IN LIQUOR NET

E. Barsi, 38, proprietor of a store in Glen Ellen, is held in the county jail pending hearing on a charge of illegal possession of intoxicating liquor, following a raid staged last Sunday night by Deputy Sheriff Joe Rya and aides.

A quantity of jackass brandy and wine was found, it is said.

## EL VERANO NEWS

By ARCHIBALD McKIVER

Deputy Assessor R. R. Emparan, candidate for supervisor against Fred Lowell, was the guest of the Sonoma Vista Improvement Club Saturday evening. Emparan made a talk to the large audience, outlining his policies if elected to this important office, and was well received, meeting many old friends and making new ones. The assessor is making an active campaign throughout the supervisorial district and is being well received by the voters of the district. He is a Sonoma Valley boy, and grandson of the noted late General Vallejo. Emparan is known to every man, woman and child in these parts, and should make a strong opponent for the office for which he is making such a progressive campaign. If elected, Dal, the writer would suggest that you again grow those famous side-burn whiskers to wear upon your initial trip as supervisor, and no doubt the other members will immediately take steps to make you chairman of the Board.

Mrs. B. Barrickman of San Francisco is spending several days visiting El Verano friends.

Fred Jensen has returned after a several days' business trip to San Francisco.

W. W. Hill, Santa Rosa, seems to be peeved about the writer's recent reference to William J. Bryan being "in his dotage." His views in last week's issue were read with interest. The reference mentioned above was no joke, Mr. Hill. We always mean what we write, Mr. Hill, and the writer and many thousands of others are going to vote for the fighting Senator LaFollette for president. As you say, he is an old man; the great statesman and scholar has made his mark in the political world and if I am not mistaken, will get still further next November. The barnacle of the Democratic party, old Billy Bryan, has been barking all his life and never got anywhere, an also-ran for president, being his only record. The only thing Bryan has done for this country was to take a leading part in bringing about prohibition, and he received hard jolts for the part he played in making the United States dry, and is said to have received a through ticket to oblivion when he tried to put over McAdoo for president at the recent New York convention, thereby muddling up that convention so that the presidency is lost to Democracy. If Senator LaFollette should possibly pass to the Great Beyond while president, Senator Wheeler, his running mate and a man of brains, will well be able to

handle the affairs of this great nation. As for the death of ex-President Wilson and ex-President Harding, their time had come, probably the result of overwork and worry. We are tired of corporation men—that's why the third party was formed. The working people's time has come for an inning and they are going to go strong for the LaFollette-Wheeler ticket. With these two great men in office, the good old United States will once more be the home of the brave and the land of the free, the Stars and Stripes will fly proudly and the Star Spangled Banner will be sung as it was in the good old days when every city, town and village celebrated the Fourth of July. Kick in, Mr. Hill, and vote this ticket, and you will have picked the winners of the coming presidential election.

The hard times ball given at Sonoma Valley's leading and popular dance hall at El Verano Villa Wednesday evening was a big success. Attended in all kinds of old clothes, the merry makers from other cities, as well as local Terpsichoreans had the time of their lives. The famous Delaney Orchestra put on the latest jazz music and the dancers remained until the musicians ceased playing. The dances each evening at the Villa are well patronized and offer great pleasure for tourists and guests at our many summer resorts.

Joe Danielli and Bill Preston, El Verano progressives, have started a wood yard here. The wood is being hauled from the Spreckels ranch, and the young men have already many cords of wood at the yard.

Frank Marsh of San Francisco is spending his vacation with his uncle, Tom Higgs, poultryman, of South El Verano.

Deer hunting opened last Friday, and a number of local hunters journeyed to the western foothills in quest of the fleet-footed animals. George Cowan and company landed a large buck. Billy Block, formerly of this place, but now of Los Angeles, was the jinx with Cowan's sharpshooters, getting two good shots at close range. Willie, however, got stage fright and missed his targets. Pete and Ferd Norrhom set camp for several days at a watering trough on the Hardin ranch, but owing to their large size, Mr. Deer spotted them and refused to drink. Many does were seen by the hunters, and it is thought that some large bucks are still in the wilds of the western foothills.

Bill Block and wife of Los Angeles are on a camping trip to Northern California and have been spending several days here, the guests of Mrs. Al Rossi, who is a sister of Mr. Block.

Mrs. N. O'Brien of San Francisco has been visiting at her ranch home in the western foothills, and also her sister, Mrs. Kate Carriger.

Mrs. P. Vericoni, formerly proprietor of the Bellevue Hotel, was here last week looking over property interests in this vicinity.

The large gang of Mexican S. P. rail workers are going ahead rapidly on the new double track to Boyes Springs. Alex Bordenotis, former section foreman on the Schellville line is foreman, and is meeting many former friends here. The laborers are housed in large tents and are just the men the company wants to do the hard work.

Felder Brothers, western foothill dairy men, have been unloading several carloads of alfalfa hay, shipped in from Woodland. On account of the scarcity of rain last season grass is scarce now, but farmers look for a heavy rainfall the coming winter.

Alex Bordenotis, foreman in charge of the rail gang here, spent Sunday at Calistoga, where he is the regular section foreman, and where his family resides. Mr. Bordenotis, being a veteran section foreman, is sent out on large jobs where many men are at work. He speaks several languages and is very popular with the workers.

Two of our young shicks motored to Sausalito Saturday afternoon to meet two Frisco flappers, who were coming here to make a week end visit in Sonoma Valley. They told the

writer their hearts were so filled with love they couldn't wait for the arrival of the evening train. The girls had a nice visit here and told Archie McKiver that the city shicks were nothing in comparison with those of the country.

P. Tillmannshoefler has returned from San Francisco where he spent several days transacting business and visiting with friends.

Harry and Arthur Baines are enjoying a motor camping trip through Northern California, and expect to be away several weeks.

The garage of Henry Norrhom on Riverside Drive has been leased to Mr. Valon of Santa Rosa, who will conduct an auto repair shop. Mr. Norrhom has moved to the Service Station Garage near Sonoma.

Little Jackie Daugherty was nine years old on July 31st, and his mother planned a surprise party for him

which took place at the "Willows" on Nob Hill. There were 20 guests present, Lillian Hornish acting as entertaining hostess. All the children were friends and relatives from the city. After the feast, the children played games and enjoyed a wonderful afternoon. The cottage was decorated in orange crepe paper and green foliage. After the children's party was over, a late dinner was served, and all declared they had spent a most happy day. The Verdier family also gave a dinner and had a wonderful birthday cake in honor of Jackie's birthday.

Fred Venton, son-in-law of John Andrews, is relieving the regular fireman on the Santa Rosa passenger run. Mr. and Mrs. Venton reside in Oakland.

Congressman Clarence F. Lea and wife passed through El Verano Friday planned a surprise party for him

**STATE HOME WANTS LATERAL TO HIGHWAY**

If a suggestion endorsed by the Board of Managers of the Sonoma State Home at the meeting on Wednesday night of last week is carried into effect, a road built across the lands of the institution for about a mile will directly connect it with the state highway now being built thru Sonoma Valley from Schellville to Santa Rosa.

The lands of the Sonoma State Home edge the highway for a considerable distance and the proposed entrance from the highway will be a great convenience and will connect the Sonoma State Home with a state highway running to all parts of the state. With the outlay of a few thousand dollars the mile stretch of road over the state lands can be built and it will be a very great convenience, not only to the people directly connected with the institution, but to the hundreds of people who annually come to the place.

The Board of Managers and institution officials, as well as many other

people, favor an entrance from the new state highway, connecting it directly with the highway, and there is every reason to believe that the state department will sanction the building of the small unit, which will mean so much in convenience to people coming and going to the institution and adjoining territory. The route will be most direct and much of the preliminary work can be done by inmate labor, which already saves the taxpayers of the state many thousands of dollars annually.—Press Democrat

**LET US DODGE THIS DEBT IF POSSIBLE**

The possibility of satisfying health authorities and property owners near the sewer farm by improving the present sewage disposal plan of the City of Sonoma at nominal expense instead of taxpayers authorizing a \$30,000 bond issue for the purpose is one worthy of the attention of every official and citizen in the community. If any possible solution of this problem can be worked out without the city assuming a big indebtedness, let us by all means have it. Sonoma is already overburdened with debt and high taxes. The sewer improvement might be a necessary expenditure but would not be one which would boost the town, like Plaza improvement, for

instance. Many improvements like the latter would likely be held in abeyance for years, due to the sewer expenditure. If Sonoma can rebuild its present plant, as Santa Rosa claims to have done, let us bring every influence to bear on the State Board of Health to permit at least a trial of the plan before our city is forced to burden itself with the contemplated bond issue.

**FRED LOWELL FOR SUPERVISOR**

At the outset of the present campaign for Supervisor of the First District, before there was any contest for the office, this newspaper declared itself for the re-election of Supervisor Fred A. Lowell. We believe that Mr. Lowell should be re-elected by the people of the District.

Fred Lowell needs no introduction to the people of Sonoma Valley or other parts of the section of Sonoma County which he represents. He is the son of one of Sonoma Valley's old and representative families, his late father having been a prominent orchardist and a man who at all times interested himself in public affairs, particularly educational matters. Fred Lowell was brought up to take a pride in community affairs and although devoting his earlier years to the business of farming, he decided when relieved of some of these responsibilities to give his time and attention to the upbuilding of his county. Because of the interest he evinced and the reputation he had for being a good practical business man, he was brought out by his friends and admirers for the office of Supervisor, four years ago. Mr. Lowell was elected by a substantial majority over J. H. Weise, who had been Supervisor for eight years. Because we believed the incumbent at that time had served the District loyally and had acquired invaluable experience which would be of benefit to the people in the future service he could have rendered, we urged the re-election of Mr. Weise. The majority vote, however, went to Fred Lowell, and we at once gave him our hearty support and co-operation, knowing him to be a splendid citizen and believing that he would make a capable and honest official. Lowell has made good and during his term of office has grasped the intricate problems of county affairs and became a valued member of the Board, his colleagues regarding him as one of the most active and helpful factors in the management and upbuilding of Sonoma County.

We believe practical experience and knowledge of County affairs is invaluable and that better results can be obtained and more prestige accorded the First District by retaining the incumbent in office than to again make a change. Mr. Lowell now knows his District's needs thoroughly. He has gone through the State highway construction period with us and realizes the work asked of him if Sonoma County is to keep pace with the State in the matter of good roads. His budgets will be intelligently planned, and he has the inside knowledge of how to obtain the maximum results for his District. Unselfish, far-seeing, and believing in reciprocity, Fred Lowe has won prestige and popularity on the Board of Supervisors, where his record is such that he is in a position to get invaluable cooperation on any practical program for the advancement of his District.

In casting a vote for this important office, remember you are delegating your business to the man whom you believe can best serve you. It is not a question of good-fellowship or personality. The choice of our public officials should be a business proposition. The man on the job, the official of experience and practical knowledge of County affairs, of prestige, honesty and capability is without doubt the man to elect.

Will C. Wood says there are just as many at the pia counter as ever in California. Yes, but Will is not so close

**RUDOLPH SPRECKELS FOR LA FOLLETTE**

Rudolph Spreckels, millionaire banker, who does not seem to get on well politically with his own class, has come out for LaFollette for President. That is his individual privilege, but when he attacks both old parties and calls both Coolidge and Dawes "candidate of the corruptionists" he hits wild.

President Coolidge came by chance to the high place he has so ably filled and as President of the United States has struck at corruption regardless of political complexion. He refused to surrender orderly constitutional procedure in the investigation of the oil scandal. He attacked, however, radical, chaotic arraignment which bore every earmark of politics from the outset, but his conservatism could never at any time be mistaken for weakness in the prosecution of political rascals. Regardless of any special privilege interest which may or may not have dominated the Republican convention, Calvin Coolidge was the choice of the Republican party of the United States, whom we venture to declare has as many honest, progressive and intelligent Americans among it as any party of record.

**THRIVES UNDER ECONOMY PROGRAM**

(From the Press Democrat)  
 Comes now Dr. Fred O. Butler, medical superintendent of the Sonoma State Home and reports a balance of \$61,000 on the right side of the ledger left over from the appropriation for support and maintenance of the big institution in the Sonoma Valley, allowed by the Governor.

This money, saved in accordance with Mr. Richardson's economy program and with nothing stinted only goes to show what can be done when all pull together in the management of affairs. The showing made at the State Home gratified the Board of Managers very much. "I am not going to harm any institution by reducing its financial support to an extent that its progress will be impeded or the State's wards made to suffer," Governor Richardson told the writer in Sacramento in January, 1923. He apparently knew what he was talking about, at any rate in regard to this institution under the excellent management of Dr. Butler.

It is stated that other institutions have been able to save money from the appropriations allowed them in the budget despite the howl that went up from the outside over the Nellie Brewer Pierce budget "cuts." It is stated for the first time in years there will be no deficiency appropriation asked for by the State University. Every body will be anxious to get the financial reports from the State teachers' colleges.

**SENATOR SLATER'S PHILOSOPHY**

Many more should have heard the eloquent yet practical eulogy which Senator Slater delivered at the casket of the late Fire Chief W. B. Cause. The Senator sounded the philosophy of kindness and smiles, admonishing all to get the most out of life here on earth by making some heart happy, some life brighter. He warned against harsh criticism, pessimism and uncharitable attitude.

A talk like this at a solemn hour when humility is in every heart lingers long in memory and does a world of good, for we are all too prone to criticize.

Stumping the State for LaFollette is a good occupation for "lame ducks."

**MISS ANNIE PEMBERTON

In Long Beach she was the guest of her cousin, Mrs. Susie Shaw Smith.

During Miss Pemberton's absence her mother, Mrs. Mary Shaw, had a

delightful visit here with her son, Colonel Shaw, and wife.

**DR. HENNESSEY WILL  
CONTEST OF INTEREST**

(Continued from Page One)

The property to go to the son, Edwin. The will was dated October 27, 1923 and a codicil was attached dated February 8, 1924, leaving a trust fund of \$2500 for the infant son of Bertram.

The entire balance of the estate is left in the will to the son, Edwin, and besides the doctor deeded to Edwin the real property at the corner of Main and First streets.

It is also provided in the will that should Mary or Bertram contest the will they should forfeit the amounts left them.

The complaint charges that, for some time prior to the making of the will Dr. Hennessey took treatment for diabetes, but that really he suffered from cancer of the liver; that he suffered great pain and apprehended an early death. It is alleged that the doctor had an infection of the toe and because of his physical condition blood poisoning and gangrene set in and it became necessary to amputate his leg and in his general weakened condition he collapsed and nearly died; that he frequently threatened suicide; that in 1922 he was threatened with blindness and was operated upon; that he became addicted to the excessive and inordinate use of drugs; that he incurred dropsey and that before the will was made he failed to recognize members of his family.

WHEN you press the electric button and flood your home with light or throw a switch that turns the wheels of your factory machinery. When you ride on a street car or fast moving electric train, think of these men.

Nestled miles away in mountain fastness—far from the city comforts and conveniences—ofttimes snowbound for days and weeks. These sturdy men stand watch before switchboards and the massive generators in the great hydro-electric power houses that you may have available that willing servant, "electric energy."

These men say, "The power must not fail," and their past performances and loyalty in upholding a record for continuous service is your guarantee of ever ready service.

ing educational advantages and qualities which made him especially adapted for government service, he won a high place during the administration of several well known Collectors of Port and prior to his retirement had charge of the office in Oakland.

A man of quiet, steady habits, keeping his own counsel and acting at all times in the interest of his government he won the respect and regard of both high officials and colleagues with whom he was equally popular.

During his frequent visits here to his late mother and more recently to his sister at Boyes Springs, Charles Kelly made many friends in the Valley of the Moon who will miss his gentlemanly demeanor, genial smile and hearty handclasp. Many sincere messages of condolence are being sent the sister and brother in their great loss.

grand herald, Carl Oberle; grand warden, A. Saltenberger; grand junior guard, H. Werne, all of San Francisco; grand outer guard, A. Hoditz of San Rafael; trustees, F. Schwarz and J. Kieper of San Francisco and J. Tullius.

San Francisco was chosen for the 1925 convention and Los Angeles for the conclave of the year following.

In a report read before the delegates it was shown that \$18,400 had been paid out the past year for sick and death benefits and that there is now \$97,653 in the lodge's treasury.

The election of Grand Ober Chief Steinkamp and Grand Trustee Tullius gives two important offices to men prominent in Sonoma Valley. The other grand officers are also well known here where the Redmen held their convention two years ago.

Mr. Steinkamp states that great progress is being made toward the organization of a Daughters of Pochontas Lodge for Sacramento and he has already signed up 32 members. He predicts the granting of a charter.

The Grand Ober Chief will shortly make a trip to Humboldt county on official business.

**A MATTER OF FORM AT THE FARM CENTER**

Who says the Farm Centers are not shaping the destiny of the country or something akin to that, for if our ladies become more beautiful and perfect the art of dressmaking, it will be just another feather in the cap of Imperial Sonoma, the home of real peaches. So think the demonstrators who are teaching the art of making dress forms to the ladies of the Farm Centers. Three members from Bellevue were in Sonoma last week and made wonderful revelations to an interested audience here. First of all the demonstrators were given a lunch, for the hospitable Sonoma committee, headed by Mrs. D. Colli, forgot all about reducing. With visions of perfect thirty-sixes via the new dress forms, eating seemed no longer a problem.

The making of the dress form is, of course, just a matter of form, but instead of the red tape so obvious at the average meeting the use of gum tape is here essential. Layers of paper cut to the human form, bound by countless yards of tape and taken carefully off and shellaced completes the clever arrangement whereby ladies get a perfect replica of their shapely selves at a cost of 65 cents and can make fashionable gowns to their heart's content. A dress form for your individual form is what you have. This is just one of many demonstrations offered by the Farm Center for its members and by joining the Center now ladies are assured many opportunities, just one of which was glimpsed by those who attended the recent interesting afternoon.

The board will continue in session from day to day until all the returns of the City Assessor shall have been ratified.

All persons desiring a reduction in the value of their property must make and file with said board, a written notification thereof, verified by oath, showing the facts upon which such reduction is sought.

**PAID DRY SLEUTHS' COMPLAINT SCORED**

The hearing in the case of Mike Mastelotti, charged with the sale of wine to a dry detective (defective) employed by the District Attorney's office to catch booze violators came to an abrupt end yesterday and ended in dismissal when it was admitted by Deputy District attorney Anderson that the complaint filed by the detective was sadly defective, in that it charged the defendant with the sale, whereas "the buy" was made from a woman, so witnesses were willing to swear. Attorney Frank Sprague, amicus curiae, roundly scored the use of such methods to catch violators and stressed the point that procedure of this character struck a blow at American jurisprudence.

Judge Small dismissed the Mastelotti case and also a similar charge, similarly defective, against Emil Kur-schwitz.

# MISSING MAN WORKING ON LINER IS REPORT

The disappearance of George Wilbur, old time employee at the Sonoma State Home, more than a year ago, while on his annual vacation, is still puzzling to his old associates. Once before it was reported that he had been seen while on his annual vacation, is still in Los Angeles.—Press Democrat.

## RADIO COURSES FOR COUNTRY SCHOOLS

Radio in the schools is one of the new departments that will be added to the course of study in the fall. For two hours once a week the radio will instruct the pupils of the rural schools and in a small way the boys and girls of the country districts will be given advantages that the boys and girls have in the larger centers of education.

It is the aim of the school heads to have this without cost to the districts. In many cases the children are making the sets and they are used for the entire school. By this means the scholars gather the things of importance in the world and by special arrangement speakers of note give talks at various times.

The definite date of November 1st has been set for the opening of this new educational feature, and many of the rural schools are now making preparations for the work.

It is the aim of the educators to have each school a civic center, and at night have the radio set provide entertainment for the mothers and fathers where they are too far from town to go to a center of amusement.

In Oakland the pupils have been receiving radio instruction for many months, and Dr. Virgil Dickson finds it a very satisfactory form of study.

## A VENUS IN THE VALLEY OF THE MOON

All eyes were opened wide and loud cheering was heard in the swimming tank at Fetters bath house recently as a little Venus appeared from one of the dressing rooms. Not a stone goddess, with broken arms and stationary pose, but a real, live, breathing beauty, with ruby lips and beautiful raven curls. Clad in a bright red bathing suit with a red silk slip over her shoulders, the young lady walked toward the diving board, climbed the steps, donned her bathing cap, threw off her wrap and amidst loud cheering made one dive that took her the entire length of the tank.

Miss Elinor DeMartini has undoubtedly been one of the most popular young ladies at the springs this season. Several parties were given in her honor last week at Fetters Hotel. The young lady is the daughter of Mr. and Mrs. C. DeMartini of Oakland and she and her mother will be at the Springs for another two weeks.

## FOR RATIFICATION OF LABOR LAW

In a statement this week Governor Richardson announced that he is strongly in favor of the ratification of the child labor amendment to the federal constitution, and will do everything in his power to help elect the men to the legislature who would ratify that amendment. The governor said:

"The next legislature will be confronted with the proposition of acting upon the child labor amendment to the constitution of the United States. It is of vital importance that this humane measure should be ratified by the State of California. While California has ample laws to protect children and to prevent their health from being injured by hard labor, still there are states in which great inhumanity is practiced toward children. I will use every endeavor to secure the election of men to the legislature who will ratify that progressive and humane legislation."

## NEW LODGE ON MT. TAMALPAIS

The directors of the Mountain Railway have let a contract to Frank Allen, designer and contractor, for the erection of a \$25,000 lodge upon the site of the old Tavern on Mount Tamalpais, recently destroyed by fire. The new building will be stucco, with a large wide terrace all around the structure. A large assembly room, dining room and kitchen will comprise the lodge. Mr. Allen states that he will break ground for the building at once.

Vote for F. A. Lowell for Supervisor August 26th.—adv.

## EIGHTY-TWO YEARS OLD PIONEER IN TOWN

Looking like a two-year-old, 82 year old J. T. Peters, former Sonoma railroad man and pioneer real estate man was in Sonoma Wednesday from his ranch near Napa. Mr. Peters called on old time friends, although he found only a few of those he knew so well when a conductor on the old Donahue railroad in 1888.

Mr. Peters was the man who stole a march on the townspeople who opposed a railroad coming into Sonoma on Spain street in the days of stage coaches, and with a big crew, laid the ties and rails of Sonoma's first railroad at night, while a threatening populace made things hot for the railroad boys while it lasted. Eight big flat cars loaded with gravel were packed onto the new track to protect it from vandalism, although eventually an injunction suit filed by the late Henry Weyl compelled the company to remove the railroad site.

Peters recalled the stirring entrance of the railroad into town and declared that as the section men worked by lantern light in the deep mire of the street, they were jeered, and missiles and mud were hurled through the air. Peter F. Donahue, builder of the road, took a keen interest in Sonoma and often spoke of the Plaza's bare appearance. It was at his suggestion that some of the first trees were planted there and the original old city pavilion erected where the city hall now stands.

Mr. Peters was 11 years of age when, in 1853, his family came across the plains from Missouri with their ox teams, entered California via the Beckwith Pass and came to Sonoma Valley. They went into camp on the Sears ranch and shortly thereafter made the acquaintance of General Vallejo. Peters' father tried to trade some American cattle for the Mexican beef breed, for he needed meat for his family. Vallejo refused to trade and seemed to look with suspicion on the newcomers, but after a day or so sent word that if the family wanted meat they were welcome to one of his steers. He sent a vaquero to lasso one of his herd for the newcomers and a fine beef finally was hung in a tree for the Peters, through the generosity of the General.

Mr. Peters recalled several original Indian rancherias in Sonoma Valley, one being in the vicinity of the former Graves ranch, southeast of town.

After many years railroad service J. T. Peters went into the real estate business with T. L. Baines in San Francisco and handled many subdivision propositions. He retired a number of years ago to his Napa holdings.

## VINEBURG ITEMS

Mr. and Mrs. Fred Batto and son Herbert, Miss Adele Andrieux and Miss Emily Batto, motored through Napa valley Sunday in Mr. Batto's new 8 cylinder Lincoln and the trip was made as easy as gliding over a moon-lit lake. On returning to Napa, the party enjoyed the evening at the Hippodrome.

The Huichica school house is now receiving a thorough renovating. The firm of Muller and Downey are engaged in painting and Mr. A. Johnson is making minor repairs.

Messrs. Henry and Walter Cook, Earnest Seakamp and Louis Semenza prominent business men of San Francisco, were the guests of Mr. and Mrs. August Figone on Sunday last.

Misses Josephine Rasora and Norma Figone of San Francisco arrived here on Tuesday and are guests of Mr. and Mrs. John Batto.

Mr. Harry Brandt, one of Vineburg's old timers and a member of the "Jasper Club" was the guest of friends over the week end. Our Harry has for a number of years been sailing out of San Francisco as Chief Engineer on many steamships and is now in the service of the Associated Oil company.

A very pleasant family outing took place Sunday when Mr. and Mrs. Joe Keechler Jr. and family, Mr. and Mrs. Chas. Groskopf and son, Mr. and Mrs. Frank Groskopf, and Mr. and Mrs. Clem Cornelius, Mrs. Leona Batto and children, Evelyn and Frank motored to Monte Rio and vicinity in 3 cars.
